## THE BEST UV PROTECTION

---

PLASDECK® IS EQUIPPED WITH THE BEST UV PROTECTION AVAILABLE ON THE MARKET. IT IS THE SAME TECHNOLOGY USED FOR THE PROTECTION OF PLASTIC COMPONENTS OF THE MOST RENOWNED CAR MANUFACTURERS. THE UV PROTECTION SYSTEM IS EVENLY DISTRIBUTED OVER THE ENTIRE THICKNESS OF THE MATERIAL, WHICH MEANS PLASDECK® WILL ALWAYS MAINTAIN ITS ORIGINAL COLOR.

## **NON-MIGRATORY PLASTICIZERS**

---

THE OILS CONTAINED IN PLASDECK® DO NOT MIGRATE BUT ARE FIXED IN THEIR POSITION. SUCH UNIQUE FORMULA PREVENTS THEM FROM BEING WASHED AWAY OR MOVING DOWNWARDS, COMPROMISING THE GLUE'S TIGHTNESS.

**PLASDECK® WILL NOT DRY UP, CRACK OR CRUMBLE OVER TIME, ENSURING THE SAME ADHESION TO THE UNDERLYING SURFACE.**

THIS PROCESS IS AN EXCLUSIVE PROPERTY OF PLASDECK®, THANKS TO SEVERAL ANTI-AGING PATENTS OWNED. THESE CHARACTERISTICS CANNOT BE FOUND IN ANY OTHER SYNTHETIC DECK ON THE MARKET.

## **ANTIFUNGAL INHIBITORS**

---

THE MOLD AND THE FUNGUS CAN GROW IN EVERY WET ENVIRONMENT. NEVERTHELESS, WITH THE PLASDECK® ANTIFUNGAL INHIBITORS, NONE OF THEM STANDS A CHANCE!

## **DOES NOT GET HOT**

---

THANKS TO THE UNIQUE, PATENTED FORMULA, PLASDECK® REACHES A TEMPERATURE MUCH LOWER THAN THE BEST COMPETITIVE PRODUCTS.

## **ANTI-SKID**

---

WITH PLASDECK® YOU WILL NEVER SLIP. DRY OR WET IT ALWAYS OFFERS THE SAME INCREDIBLE GRIP.

## **EASY TO REPAIR**

---

ANY DAMAGES CAUSED BY IMPROPER USE OF PLASDECK® CAN BE EASILY FIXED. SPOTS, WHICH WERE REPAIRED ARE NOT DISCOLORED IN ANY WAY AND PERFECTLY MATCHES THE REST OF THE DECK.

## **NO MAINTENANCE**

---

PLASDECK® IS RESISTANT TO ALMOST EVERYTHING. ALL YOU NEED TO DO IS SIMPLY CLEAN IT USING SOAP AND WATER OR, IF NECESSARY, WITH A HIGH-PRESSURE WASHER. IT WILL LOOK GREAT AGAIN!
